Northern Border Regional Commission

The North Conway Public Library has been serving the community of Mt. Washington Valley for over 100 years and has remained steadfast in its mission to nurture a love of reading and provide a welcome and safe environment for all ages. As our community has evolved the library's role has become even more important. Their plans to modernize and expand their existing building will address a broad spectrum of issues that impact our local economy. By listening to the current needs of library patrons they are proactively setting the stage for the future of this library by accommodating the need for information, technology, career planning, education, technical resources, business planning, etc. for today's entrepreneurs, students, business leaders, workforce, educators and more. The library will be able to position itself as a vibrant community hub, of vital importance to the growth and viability of our local and regional economy.

The Mt. Washington Valley Chamber of Commerce is excited and enthusiastic about the library's plans and wholeheartedly support them in their application for funding from the Northern Border Regional Commission.

Sincerely,

Janice Crawford, Executive Director
